12th October 2020,

KESCAVA VIRTUAL CONGRESS 2020
EQUINE PRACTICE SESSIONS REPORT
Equine Sessions: 20th August and 21st August 2020

Introduction

The Kenya Small and Companion Animal Veterinary Association (KESCAVA), in conjunction with the World Equine Veterinary Association (WEVA), successfully hosted five (5), hourly sessions of virtual continuing education during the inaugural KESCAVA Virtual Congress (17th – 21st August 2020). The sessions covered were mainly aimed at what a veterinarian in general practice would encounter in his daily routine cases. Initially, the Congress targeted Kenyan veterinarians but it was pleasant to see participants from other African countries thus making it a Pan – African Congress. There was a feedback survey given to participants (50% on each day) and the evaluation of the feedback by respondents is as follows:

1. Learning Objectives

Met: 94% Partially Met: 6% Not Met: 0

94% of all the respondents gave a response that the learning objectives were met. 6% of the respondents stated that their learning objectives were partially met.

2. Session Aspects

Acknowledgement:

On behalf of KESCAVA, I would like to acknowledge and sincerely express our gratitude to Prof. Kate Savage; Prof. Vinze Gerber; and Dr. Christopher Riggs, and by extension WEVA, for accepting to offer the virtual lectures albeit at very short notice. We are glad that it was an opportunity that was well utilized to further enhance the good partnership between KESCAVA and WEVA; and it also offered the opportunity to improve the outreach started by WEVA in 2019. The KESCAVA 2020 Virtual Congress served to introduce and expose WEVA to a wider African audience and hopefully, this will lead to greater interest in WEVA's activities in the greater sub – Saharan veterinary fraternity.
